RELEVANT SKILLS

Programming: Java, SQL, HTML, CSS

Technologies & Tools: Spring Boot, JUnit, Git, Gradle, Javalin

Knowledges: TDD, CI/CD, Patterns

Soft Skills: Teamwork, Lifelong Learning, Problem Solving, Adaptability, Verbal/Written communications

EDUCATION

Online school of programming Hexlet

Java Developer

2023 – present

Peter the Great St.Petersburg Polytechnic University

Master Degree
Engineering

2006 – 2012

LANGUAGES

English: B2 – upper intermediate

Russian: native speaker

PROFILE

Highly motivated Java developer intern with over 11 years of expertise in waterfront structural engineering. Reduced seaport structures construction costs by 30%, cut design time by 15%, and led projects with construction costs up to \$60M. Skilled in Java, SQL, HTML, CSS, experienced with TDD and CI/CD. Excellent in teamwork, problem-solving, and adaptability.

WORK EXPERIENCE

JSC “Lenmorniiprojekt”

2011 – 2022

Maritime infrastructure and seaport designer, provides end-to-end design solutions, taking part during the entire project life cycle from engineering surveys to project commissioning.

Structural Engineer

- Reduced construction costs for seaport waterfront structures by 30% through active promotion and implementation of the Plaxis computational software within the company
- Decreased total design time by 15% by automating routine calculations
- Conducted structural calculations for 120+ buildings and structures, ensuring their stability, safety, and adherence to industry standards and regulations, achieving a 100% compliance rate
- Significantly contributed to the company's growth and market competitiveness by completing highly responsible projects with maximum structure costs of \$60M
- Speed up tasks execution by consistent organization of sync-up meetings with cross-functional teams and customers
- Progressed from an intern role to the position of team lead, demonstrating consistent growth and advancement throughout my career journey
